

Get Sitagliptin (comparable to ZITUVO®) for \$80/month

Manage Type 2 Diabetes with Sitagliptin

DPP-4 inhibitors have become an important treatment option for managing Type 2 Diabetes. Focusing on the body’s natural ability to regulate glucose levels, this drug class has significantly expanded the therapeutic options, offering a combination of efficacy, safety, and convenience.

However, the retail cost of these popular medications can be steep, often exceeding \$600 per month, which puts them out of reach for many individuals.

Generic Sitagliptin is Available Exclusively at Marley Drug Pharmacy

ZITUVIO® (sitagliptin) was FDA-approved in 2023. Its generic counterpart, generic sitagliptin, is exclusively available at Marley Drug pharmacy, in collaboration with Zydus Pharmaceuticals (USA) Inc.

By partnering with Zydus Pharmaceuticals, we can offer this medication at a significantly lower price compared to traditional pharmacy channels. This is achieved by bypassing wholesalers and insurance intermediaries, which contribute to high medication costs.

Marley Drug simplifies access to Sitagliptin:

- \$80 for 30 tablets
- No insured required
- Free nationwide shipping
- Available to all patients with a valid prescription

Generic Sitagliptin
25, 50, 100 mg tablets
85% Less Than the Brand Option
